PROFESSIONAL SUMMARY

Full Stack Software Developer with a PG-DAC (CDAC) certification in Advanced Computing and hands-on experience building production-grade platforms for international clients, including a Dubai-based startup meeting platform for GITEX Asia and an aerospace quality-control system for Godrej Aerospace. Proficient in C#, ASP.NET, Java, Spring Boot, React.js, Python, and Azure AI Search, with strong skills in REST API development, SQL Server, Microservices, and Agile/SDLC practices. Experienced in QA testing, debugging, and performance optimization.

TECHNICAL SKILLS

Languages	C#, Java, Python, JavaScript, SQL
Frameworks	ASP.NET, Spring Boot, React.js, Django, Entity Framework
Web/API	REST APIs, Web APIs, HTML, CSS, OOP Concepts
Database	MySQL, SQL Server
Cloud/DevOps	Azure, Azure AI Search, Docker, Microservices, Git, GitHub
Testing/Tools	Selenium, Postman, Jira, Azure DevOps
AI/ML	OpenCV, TensorFlow, CNN (Basic Exposure)
Other	Data Structures & Algorithms, Agile/SDLC

PROFESSIONAL EXPERIENCE

Software Developer

Wingsbi

Apr 2026 – Present

Pune, Maharashtra, India

- Developed and maintained C#, ASP.NET, and React-based web applications for international clients, including a Dubai-based startup platform and Godrej Aerospace.
- Integrated Azure AI Search into the XpoMatchEvents platform to enable intelligent startup-investor matching and discovery.
- Performed QA testing, debugging, and performance optimization; participated in code reviews within Agile/SDLC workflows.
- Worked with REST APIs, SQL Server, Microservices, Docker, and Git for end-to-end feature delivery and version control.

PROJECTS

- XpoMatchEvents – Startup Meeting Platform** (C#, ASP.NET, React.js, Azure AI Search, SQL Server): Full-stack meeting management platform for GITEX Asia connecting startups and investors; integrated Azure AI Search for intelligent matching and built registration, interest-tracking, and automated scheduling workflows.
- Godrej Aerospace – PreCheck Management System** (C#, ASP.NET, React.js, SQL Server): Component pre-check and QC management system covering end-to-end tracking through pre-check, QC, and assembly stages, with validation checklists, inspection reports, and role-based access control.
- Event Management System** (Java, Spring Boot, React.js, MySQL, JPA/Hibernate): Full-stack event management app with JWT authentication, event booking workflows, and vendor supply tracking via RESTful APIs.
- Cricket Tournament Management App** (Java, Spring Boot, React.js, MySQL): Full-stack tournament manager with team registration, match scheduling, and live scoring; won 2nd place in the CDAC inter-batch hackathon.

EDUCATION

PG-DAC (Advanced Computing) – CDAC

Sunbeam Institute of Information Technology, Hinjewadi, Pune

Relevant Coursework: Core Java, Data Structures & Algorithms, Operating Systems, DBMS, Computer Networks, Spring Boot, React, HTML/CSS/JS, Git, Agile, SDLC

Feb 2025 – Aug 2025

B.E. – Mechanical Engineering

SGBAU University, Amravati, Maharashtra

Jan 2020 – Jan 2023

ACHIEVEMENTS

- Secured 2nd Rank in the CDAC inter-batch Hackathon for the Cricket Tournament Management App.
